KWS ANNOUNCES *STAR TREK: THE MUSIC*

KITCHENER, Ontario – Space... the Final Frontier. These are the voyages of the **Kitchener-Waterloo Symphony** (KWS). Its on-going mission: to explore new sounds; to seek out new audiences; to boldly go where few orchestras have gone before.

On June 2nd and 3rd at the Centre In The Square, the KWS will perform some of the most notable music from the hit series **Star Trek**, including the theme from the original series, the theme from *Voyager*, the Klingon battle theme, selections of James Horner's scores from *The Wrath of Khan* and more – highlights from the abundance of music accompanying five series and eleven feature films.

Joining the musicians and conductor John Morris Russell onstage as co-hosts will be two veteran *Star Trek* actors – **John de Lancie** (Q in *Star Trek: The Next Generation*, *Deep Space Nine* and *Voyager*) and **Robert Picardo** (The Doctor on *Star Trek: Voyager*).

These concerts are presented in collaboration with **The Children's Museum** in downtown Kitchener, as part of their upcoming space exhibition. **Cosmomania** will explore the history of space travel with local innovations and a unique opportunity to see deep into space.

The concert will be followed by an exclusive ticketed After Party including a meet-and-greet and autograph session with de Lancie and Picardo.

Trekkies/ Trekkers in costume are welcome. Live long and prosper!
